Mr. Howland Wood,  
American Numismatic Society,  
Broadway and 155th Street,  
New York, N. Y.

Dear Sir:

Enclosed please find four coins which have  
been recently issued.

If you will inform us of any coins which we  
have illustrated in the, "New Numismatist,"  
from time to time, and which you have not  
already received we will try to send these to  
you.

We have received a few Mark Banknotes of small  
denominations, and if you are interested we shall  
be glad to let you have them when you are in our  
neighborhood.

Very truly yours,

JG/R

Mr. Julius Guttag  
52 Wall Street  
New York City

Dear Sir:

I desire to acknowledge with many thanks the receipt of the four coins which you kindly sent us.

If you should get hold of any of the German encased postage stamps, shown on page 247 of the last Numismatist, we should be very glad to have a specimen, especially as we now have similar ones from France.

Thanking you for your co-operation and continued interest,

Very truly yours,

Curator

Dear Mr. Guttag:

In reply to your favour of June 16th  
we are not interested in the collection of Aus-  
trian paper money about which you write. We  
have seen it and think it a most remarkable col-  
lection, and trust that the owner will be able  
to dispose of it here.

Dear Sir:-

We should be glad if you will kindly inform us  
as to exactly what a "MOHUR" is.

We have seen 15 rupee gold pieces called Mohurs,  
and we are particularly desirous of knowing whether  
in view of the recent stabilization of the rupee  
at 10 to the pound sterling, the Mohur is now the  
equivalent of 10 rupees or whether 15 rupees will  
be equal to a Mohur as formerly.

Thanking you, we remain,

Very truly yours,

Gentlemen:

In reply to your favour of July 13th,  
as far as I know the Indian Mohur is still  
15 rupees. It is no longer a coin as I un-  
derstand it but simply a money of account.  
I can find no record here stating just what  
a Mohur is today, but I see no reason to  
think that it is anything but what it has  
always been.

Dear Julius:

Many thanks for the tips you gave me on the trip to Boston. I have written the various parties.

I am enclosing, herewith, the table on the modern Chilian coins about which you asked.

I am desirous to send to India ten rupees. Could you send me this amount in paper money so that I could mail it there, letting me know how much it is and I will send you a cheque.

Dear Gutttag:

I cannot help you out at all on the new Czecho coins, and I have sent this clipping on to Frey to answer you at once as he is better posted on news issues than we are.

I wrote the Standard Bank of South Africa with regard to the booklet you mentioned, and they replied that they thought we must have gotten the wrong bank as they had published no book on Currency recently.

Dear Sir:

In looking over the book which I have in my possession, I find that instead of the Standard Bank of South Africa, it should be the National Bank of South Africa, and I feel sure that if you write to this institution you can obtain one of these books, since it may be quite a help to you.

We are enclosing two of the encased postage stamps one from Argentine and the other from Norway. With regard to the Norwegian stamp, we have been unsuccessful so far in obtaining one with a stamp encased, but we may have better luck later one.

photography, and we would like to have  
plates made of Civil War Tokens,

Dr. Hetrich informs me he has about  
352 coins, and I would like to know  
how many you could put on one plate,  
and your price per plate.

February 18th, 1922

Mr. Julius Guttag  
52 Wall Street  
New York City

Dear Mr. Guttag:

Whenever we have photographing done a photographer comes here to make the negatives. We photograph the coins flat with the camera pointing downwards so that we do not have to stick or fasten the coins in any way.

We would be glad to photograph the coins for you if you lay them out or give us a diagram showing just how you wish to have them arranged. The number that can be placed on one plate depends on how close you want them. We make negatives 3 in. by 10 in. or 5 in. by 7 in., and I think that Mr. Petrich can easily figure out how many coins would go on a negative. They should come within  $7\frac{1}{2}$  in. by  $9\frac{1}{2}$  in. or  $4\frac{1}{2}$  in. by  $6\frac{1}{2}$  in.

The price for negative and one print would be probably \$3.50 for an 8 in. by 10 in., and \$1.00 for a 5 in. by 7 in. I think our photographer charges 15 cents for extra prints.

Dear Mr. Guttag:

As I have been so swamped in work lately in connection with the Sculpture Exhibition, I hardly know right now whether or not I would want to attempt to write a historical sketch of the Civil War Tokens. However, I will try to let you know definitely very shortly. My chief fear is that I do not know enough about the history of these to qualify as an expert. In other words, let me think the matter over for a few days.

Why don't you try to get someone else to write it so that you will not be left high and dry? In the meantime, I would do my best to write the Introduction, and if it is not used or too late, I will not care.

Dear Mr. Cuttag:

If there is not enclosed in this letter a list of dealers, it will be sent to you the first of the week. I had one drawn up but was not satisfied with it, and am having a number of new names added. I also want to correct our own list of dealers at the same time.

My dear Mr. Wood;-

Will you kindly forward to me two  
copies of your book on West Indian Coins.

It has been decided to hold COIN  
WEEK during the first week in February during  
which time an extensive advertising campaign will  
be held throughout the country in magazines,  
newspapers, etc. to interest the public in  
Numismatics. Collectors, dealers, clubs, and  
societies will be asked to work together for the  
success of that week.

It is my idea for all the dealers  
to get together and subscribe to a fund to carry  
on the advertising campaign.

Further, I think it would be  
a good idea for all the Coin Clubs to hold  
exhibitions during that week in their respective  
cities, in the Libraries or some other suitable  
place. What is your opinion of this plan?

Any suggestions which you may have  
to offer will be appreciated by

Very truly yours,

Julius Guttag

Dear Mr. Gutttag:

The reprints on the West Indian coins has been exhausted for several years. The only way to get this now is in the Annual Volume of the Journal which costs \$5.00.

Wormser was speaking to me about your plan for a Coin Week, but as yet have not been able to give it much thought. Will talk it over with you sometime when I see you.

Very truly yours,

Curator.

Gentlemen:

Replying to your letter of March 28th, it is extremely difficult to tell you what Chinese pieces should bring in this country. We get ours from China mostly, at not much over face value.

The silver bar is probably not a coin - it simply has the word in Japanese silver on it.

The Hu-Peh tael is worth any day Six Dollars, and, I think, considerably more.

The Republic of China dollar with flags might be worth eight or ten dollars. Zerbe is looking for one of these.

The Pei Yang piece, as far as I can see, is no different to any of the other Pei Yangs, all of which are common.

The piece that looks as if it were engraved, does not strike me as being a coin - neither from its design nor description; and I would not set much value by it.

I am returning these rubbings to you.

I will have the bank send you a cheque for \$15.00 for the Afghanistan gold coin; you should receive at the end of this week.

Very truly yours,

Encs.

C O P Y

Gentlemen:

I was talking with Mr. B. H. Collins in Washington a few days ago about old medals and he told me he thought you might have or be able to get what I want.

There are two of them: One is that used by the American Fur Company in the upper Missouri country, which has on one side clasped hands and the tomahawk and peace pipe crossed, and on the other side the head of the President of the American Fur Company, I presume it is Mr. Astor. The other medal I was looking for is that used by Lewis and Clark on their trip to the Pacific.

Have you either of these? If not, can you get one or both of them for me and how much would they cost? If you do not know of any that are for sale, can you tell me where there are some on exhibition? I have never seen either of them.

Yours very truly,

Dear Gutttag:

It is somewhat hard to get the two Indian Peace medals desired by your customer. We have duplicates of ~~maishaer~~. The first is very rare and is the Astor Medal; the second is the Jefferson Medal. These turn up at times, and are two silver shells put together, and not solid like all the subsequent medals. We have several of the Jefferson and that of the Astor on exhibition.

I have always considered that one rial, with Haiku, 1882, on the other side, as belonging to the Hawaiian Islands. They turn up once in so often. We have none of these in duplicate.

Dear Mr. Guttag:

The enclosed letter from the Photo-gelatine Company will give you a rough idea of the cost of this kind of plate. I figured on a book 7 x 11 inches, outside dimensions. They could print nine subjects or plates on a sheet, as you will note, at a cost of \$25.00 for 300 sheets, and \$102 for 500 sheets, making each plate cost in the neighborhood of Ten Dollars each. The printer would then have to print numbers and headings on these sheets.

I very much doubt if you could use the photographs which you already have, as they have not been cut out very well. In fact, you should not attempt to cut them too close to the coin but should leave them square.

I think you know Mr. Axmacher connected with the Photo-Gelatine Company.

Very truly yours,

Dear Sir:

We are going to exhibit at the International Philatelic Exposition to be held at Grand Central Palace from October 16th to 23rd inclusive, and would like your advice and assistance in preparing our exhibit, as well as the loan of possibly one or two coins such as odd shaped pieces etc. which would attract attention.

Also, we would like to label all the coins in a manner that would be a credit to the Numismatic Fraternity so that the Stamp Collectors who are going to view the Exhibits will pass more than favorable comment on the Coin Exhibit.

We are not trying to save any expense, so that our booth No. 18, will be as good as that of any of the Stamp Collectors, from this country or abroad.

Any suggestions or advice you may have will be appreciated. We are writing a similar letter to Mr. Farran Zerbe today.

Many thanks for your letter of February 2nd.

I may have put the amount of tokens higher than seems possible, but there is really no complete list and if we consider the Civil War Tokens and Cards together, I am sure they will eventually number in their lists at least 10,000 pieces although it may take several years.

Referring to the photographs, don't forget to have two reverses photographed and the one obverse. Please try to get as good impressions as are possible; I would like to have about half a dozen copies.

Dear Sir:

I am afraid I cannot help you out much on Lottery Tickets. Your correspondent should be able to get a great deal of information from any of the Colonial and early histories of this country, as lotteries were very common up to 1833 in some states, and some time in the 40's in other states. Special lotteries of which he sends illustrations, I know nothing about. There were countless thousands of lotteries conducted in the Colonies and the states for every conceivable purpose. They were run by the state or sanctioned by the state. Many churches were put up through lotteries, several buildings at Harvard, Yale, Brown and other colleges.

Lotteries probably came into England in the time of Elizabeth and our colonists when they came over here were familiar with them. They began to organize lotteries early. Bridges, roads, canals, public buildings, etc. were often built by lotteries. The prizes were in money and kind. History is filled with instances throughout New England where merchants to increase their business or to recoup losses, offered any hard luck story, organized lotteries with the sanction of the state and sometimes were more than put on their feet. Anybody digging into the subject can find plenty of material. We up here have no special material in our library.

## A MUSEUM OF THE MONEYS OF THE WORLD

Libraries, as well as Numismatic Societies and Collectors, are naturally interested in all that relates to coins and coinage. We respectfully submit to them the following facts :

THAT about 37,000 coins and medals have been brought together by THE AMERICAN NUMISMATIC SOCIETY during the forty-nine years of its existence ; that some of its collections are unique, and of high educational value.

THAT the time has now come to provide a suitable home for this large collection in a fire-proof building, and a place for future accessions. Such a building is now in course of construction, and the work is progressing rapidly ; it adjoins that of the HISPANIC SOCIETY OF AMERICA, which has a collection of Spanish coins of great rarity. The cabinets of these two Societies, taken together, contain one of the best collections in existence. The building will be the finest in the world to be used exclusively as a Museum of the money of all ages and countries. A fund is being raised for the construction of this building. The cost will be about \$50,000, nearly one-half of which amount has already been subscribed.

THAT a Building Committee is charged with the raising of this fund, and this Committee trusts that it is not too optimistic if it counts upon the support of every member of the Society, of Bankers, Financiers, and all others who are interested in helping the work of a great educational institution ; an institution which will be of benefit to all, and an honor to the City of New York.

THAT all donations, large or small, will be gratefully appreciated ; and that subscribers of \$500 or over, will be enrolled as "Patrons of the Society."

Dear Mr. Gutttag:

I probably will be down to see you  
Friday morning.

I beg to acknowledge and thank you for  
the gift of the collection of Austrian and German war  
notes, contained in two large volumes. These are being  
looked over, and the duplicates will eventually be  
returned to you.

Concerning Westchester County bank notes,  
we have no duplicates and our collection contains only  
one note. This is on the Bank of Yonkers, 1858; it is  
interesting as it has been raised from \$1.00 to \$5.00.

Dear Mr. Gutttag:

I have just received a letter from the S.L. Hecht Company, stating that you have been holding up payment on cuts made until I had O.K'd them. This is the first intimation that I was to do so. I have looked them through and am returning them to you - three proofs which were made too small, with the originals. The rest, as far as I can see, are O.K. I have indicated the proper sizes on the drawings. This mistake you will have to settle with the engraver as I do not know who is responsible. One of the sheets is of South American coins which we are not using in the compilation I am doing. Whether you wish these made over is up to you. In the same package were proofs of half-tones, probably from Stowell. I should judge these came to me by mistake. I did not know you were contemplating using half-tones - evidently they were used in your monthly bulletin. Perhaps you intended to have Stowell send to us proofs of line cuts that had been previously made but not used.

Sincerely yours,

Curator.

Also, I am enclosing the few pages of Canada, as you said you would have Adams do North and South America. I can work independently of these. I have already begun the type-writing and as you will note I pasted the illustrations onto the manuscript.

If I remember correctly, some months ago I returned to you for the engraver, two or three pages of proof of cuts that were made the wrong size. I do not remember receiving these back. There may be and probably are some cuts on these pages that I should want.

Under separate cover, we are returning the two coins we did not keep, also in the same package is your Washington English half penny. I notice you have this listed in your "Coins of Americas" at \$8.00. I do not understand where you got this amount; I thought they sold as a rule from 75¢ to \$1.50. Dear Julius:

There is no good way of cleaning copper coins and in recent years when they have been in bad shape we have cleaned them by the electrolysis process. This is a long, slow method but very good. It however takes quite an elaborate apparatus to do this; our own is now dismantled. As for nickel, we do not know of any good method. I am glad you brought it up and suppose the next time that either of us see Case of the Nickel Company we might ask him.

I have just spoken to Robertson about assorting your duplicates for ultimate sale. On some you have so many duplicates that someone in your place would eventually have to go through them to weed out one of each so as not to have too many of the same kind in a sale. Also, many are in too poor condition to realize anything on any sale. We had already pretty nearly gone through these but I will have him look those over we do not want and put any more additional information on the envelopes if they need it. Dear Julius:

I have looked over Hill's letter and do not see that you need the 8 real with OXA at the bottom very badly because you have already a specimen, although not as good as Hill's. As for the three half real pieces they are rare but not as rare as Hill thinks. I saw three or four the other day but as they were with a lot of other coins that the man wanted to sell entire I could not get these. I should say that they are worth \$1.00 or so each. Little some years ago had a number, some of which he sold to Liveright. Therefore I think the price of \$10.00 each much too high. The Ferdinand VII 1812 is a sand cast dollar of Chihuahua and the monogram on the back is not especially rare. I would value the piece at \$3.00 or \$4.00 at the most. I do not know what he means by the one real Chilpancingo silver piece. As for the Maximilian pattern in copper you have got to use your own judgement as to whether you want it.

Very truly yours,

Dear Howland:

You undoubtedly know that the President signed the bill for the New Rochelle Half Dollar.

I do not know whether I will be on the committee or not, but I wish to be prepared. The design which is selected will be both a credit to the Numismatic Fraternity as well as the City of New Rochelle. My idea is to have a coin that will be more on the type of a medal. If you have any suggestions to offer, either in the design or otherwise, I would appreciate receiving them, as you know a great deal more regarding this matter, than I do.

I am also enclosing a few strips, which you are collecting.

Dear Julius:

Many thanks for the postal strips you sent me the other day.

Concerning any suggestions for the New Rochelle half dollar, you have rather put me on the spot. About all that I can say is that it should be characteristic of New Rochelle, either incorporating a monument, the oldest building, or featuring the Huguenots.

You cannot, of course, have it in too high relief. I should say the Hudson half dollar is about as high in relief as you could have it. Certain mottos, etc., have got to go on.

Our experience has been that one should not hamper the artist too much. Put the design, etc., more or less up to the designer of the coin, and only give him broad outlines of what you want.

Very truly yours,

Dear Julius:

I am not dead stuck on using the New York 1787 cent for the New Rochelle half dollar, especially both sides.

To begin with, I don't think they have any especial significance. Also, I never was stuck on the design - in fact I have always thought it was pretty poor. If by any chance you should use both designs, it is quite likely that the Fine Arts Committee that passes on the designs for all coinage and government work might turn it down.

I still think as I wrote you the other day that you ought to <sup>have</sup> an original design, leaving it largely to the artist. If you are going to get out a half dollar, you might as well get out a good one. Has you given any thought to having Swanson do it?

Your letter of February 3rd at hand. I appreciate your asking me to be a guest speaker at the dinner on the 3rd Tuesday in April of the Westchester County Coin Club, but I really must decline this as I am making no engagements this winter to give talks because I have not wholly recovered from a bad attack that I had last summer and although I am as a rule all right now, I cannot count on myself as to how I will be at a given time in the future. ## Chicago Jubilee Bill

Senator J. Hamilton Lewis has introduced a bill in the Senate seeking authorization for the issuance of a half-dollar commemorating Chicago's Charter Jubilee. It is proposed that 100,000 such coins be minted and distributed through the chairman of the Chicago Charter Jubilee.

## Coronation Sets

Guttag Brothers report that the new George VI coins to be struck in time for the coronation will include eighteen varieties and will be sold in sets. The gold coins will include ten shilling, one, two and five pound pieces. The three-penny, six-penny, shilling, two shilling, two

gold pieces, will also be sold for the coronation.

## Easton Coin Committee

The Mayor of Easton, Pa., has appointed Charles W. Neumoyer as chairman of the committee which would distribute the proposed half-dollars in honor of Easton's Golden Jubilee.

## Flood Relief Coins

Thomas G. Melish, 105 East Third Street, Cincinnati, is treasurer of the Flood Relief Commemorative Coin Association, the proposed distributing agency under bill H. R. 4649 for a coin to be sold for the benefit of flood sufferers. Mr. Melish advises that as treasurer of the Cleveland Centennial Commemorative Coin Association he still has a number of the Cleveland 1936 half-dollars on hand.

Dear Julius:

I turned the two books over to Noe and all he can see is \$2.00 in them, which was about what we rate the other books at. As I think I told you, Adams seemed to make at least two copies of everything he did and when he made additions he seemed to grab either one or the other indiscriminately to make the changes or additions so that one, to be sure of a thing, has to go through both copies to see if he has everything wanted.

Also most of the books are from material taken from other books and catalogues. I have found hardly an original notation or photograph. The value of these is only the fact that he has under two heads all the stuff he could get hold of relating to each subject.

Very truly yours,

Curator

Dear Julius:

Please pardon the delay in answering your two postcards but some newspaper published our name and we have been simply swamped with letters the past few days.

I have the Lithuanian coins except the 5 litas which we lack. Although I have the Liberian copper piece, I do not know who designed it or where they were struck. I do not recall, in our monthly mint reports, that we made them, therefore I am inclined to think they might have been made at Birmingham but do not know.

In 1934 Monaco issued silver 20 franc pieces and nickel 5 franc pieces. Have you ever seen any of these? If you have any, I would like to get one of each.

I understand that Ecuador in 1936 issued new silver, nickel and copper pieces. Why don't you send down there and get some. Probably you know about these. If you have any, I would like one of each.

Very truly yours,

Curator

Dear Howland:

Referring to your letter of the 16th instant, at this writing, we have no Monaco coins issued in 1934. However, we are trying to obtain them, and shall notify you when we get them.

As regards the Ecuador coins, it is rather difficult to obtain these, but we have written to our correspondent again, and hope to be more successful this time.

With reference to the Lithuanian 5 Litas coin, please be advised that we only sell these in sets. However, if a group should desire one coin of each denomination, we would be able to break a set up for you.

Yours very truly,

Dear Julius:

Please pardon the delay in returning that list of Chinese coins. I have looked over it a number of times and do not see enough in the collection to really be interested in it as a whole. Also, at the present time, I know of no one who would be interested.

It looks like a very nice collection, especially of the silver coins. Many thanks for sending it on as I did pick up some information from this.

That Swiss 5 franc piece which you sent is quite badly nicked and scratched. Sometime when I am down town I will bring it down and see if you cannot give me a better one.

Dear Julius:

The photograph you sent I should say was a double enlargement of the piece itself. I have seen several on this order and I consider them all fabrications, a pure figment from somebody's brain. Most of them have, however, instead of the shield, the pillars of Hercules.

The two that I have do not seem to be struck but seem to be etched. They all are irregularly shaped and are very flat.

Dear Sir:

Your favor of the sixth instant at hand. I will do my best to answer the various questions in your letter.

The Monograph on South American coins has never been wholly completed. Parts of it are in our hands and I cannot say whether it will ever be published; it is very fragmentary and not much good.

We are sending you a copy of "Ephemeral Decorations" by Mr. Gillingham which will answer the various questions you ask concerning the ribbons of the transitory states. The last medal the United States issued was for service on the Yangtze. I am also enclosing a few recent ribbons which we happen to have and the descriptions of all other recent ribbons, also a sample of the first ribbon of the Congressional Medal of Honor.

We cannot help you out on the ribbons of China. We have a few of these decorations but have been able to learn next to nothing about them. All of the ribbons we have seen of the American Red Cross are either a deep blue or purple. We will try to find out more about these.

The past few years there has been no one here who has taken a special interest in decorations so that we at the present time are somewhat behind in modern Orders and so forth.

Yours faithfully,

Secretary
